Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 17 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Early rain clearing to sunshine, further rain this evening.

Today:
A cloudy start with outbreaks of rain clearing east around dawn. Remaining breezy but becoming largely dry and sunny, before further cloud arrives from the southwest by the end of the afternoon. Feeling rather mild in sunny spells. Maximum temperature 10 deg C (50 deg F).

Tonight:
Cloud will continue to thicken with outbreaks of rain soon following. Rain may become rather persistent for a time before clearing to the north during the early hours of Thursday. Minimum temperature 2 deg C (36 deg F).

Thursday:
Rain and cloud clearing through the morning to bright spells and showers of rain and perhaps some snow over hills. Generally mild by day but colder overnight, with patchy frost. Maximum temperature 9 deg C (48 deg F).

Outlook for Friday to Sunday:
Changeable and often windy with rain likely each day. Some bright or sunny interludes. Generally rather mild with a low risk of hill snow.
